

Barbara's husband is missing on the family farm. When Jack finally returns he is a nervous wreck and will not leave the house.

He is suffering from Agri-phobia (the fear of agriculture).. and is convinced that he is Hiroo Onoda - a Japanese soldier holding out on an island after world war Two.

Barbara's husband is nuts. The only people she can trust with this information is the new vet and the village idiot.

How will they restore Jacks mind without the help of the medical profession. or common sense?
